# BandhanSetu

Premium Matrimonial Platform

## Blueprint v0.2: Screens, Astrology & Pandit Module

Stage 0 (Discovery) status document for team discussion. Shows the app-opening look, key screens, the new Astrology section (AI + live Pandit), Pandit registration, display rules, and decisions needed. No code is included.

Important: Everything here is a provisional proposal for discussion. Business decisions (audience, pricing, verification, messaging rules) are not final until you approve them.

Date: 11 October 2026 | Status: Draft for review | Wireframes use placeholder images, not real photos.

# 1. Where we are now

Completed: product understanding, discovery questions, deliverable order. In progress: visual direction, screen wireframes, and the new Astrology + Pandit module (this document, v0.2). Not started: full 18-document blueprint, database, architecture, security register.

## Provisional assumptions used in these wireframes

| Decision | Provisional assumption | Status |
|---|---|---|
| **D1 Audience** | India first; NRI support in Phase 2 | **Needs your approval** |
| **D2 Community scope** | Broad India; religion/community fields optional | **Needs your approval** |
| **D3 Profile creators** | Self + parent/guardian at MVP | **Needs your approval** |
| **D4 Verification** | Mobile OTP + photo review at MVP; govt-ID badge optional; OTP is not proof of identity | **Needs approval + budget** |
| **D5 Revenue** | Freemium: free to browse, paid to message more / get visibility | **Needs your approval** |
| **D6 Messaging** | Chat only after a mutual interest (safer, less spam) | **Needs your approval** |
| **D7 Team & budget** | Unknown, so no dates or costs promised | **Question open** |
| **D8 Moderation** | Human review of photos and reports from day one | **Needs your approval** |
| **D9 Astrology scope** | Kundli + Guna Milan early; AI and live Pandit in Phase 2 | **Needs team decision** |
| **D10 Pandit model** | Invite-only pilot, approval before going live, wallet billing | **Needs team decision** |
| **D11 AI guardrails** | Explain computed chart only; no health/legal/death predictions | **Needs approval** |
| **D12 Legal review** | Astrology claims, Pandit payouts, birth-data consent | **Open: counsel needed** |

## Questions still waiting for your answer

- Launch geography and cities; languages needed (English / Hindi / others).
- Caste, gotra, horoscope and manglik fields: include or not? (culturally important but legally and ethically sensitive.)
- Second marriages (divorced / widowed) at MVP?
- Verification strictness and per-check budget; size of moderation team.
- Freemium vs fully paid; any target price range.
- Team size, budget, timeline, existing brand/logo; native apps vs responsive web; preferred tech stack.
- Astrology: AI + live Pandit in MVP or Phase 2? Pandit pricing, commission and supply source (see page 17).

## How to read the next pages

- Each screen shows a wireframe (left) with a list of what it displays, what is hidden or locked, and which release it belongs to.
- Photos are grey/colored placeholders. Real photography will be sourced or shot during the design stage; no competitor assets are used.
- Screen IDs (S-xx) will be reused in the screen inventory, API spec, database mapping and test cases.

# 2. Look & feel (proposed)

Premium, warm, trustworthy

## Colour palette

**Royal Maroon #7A1F3D**
Primary: brand, buttons, links

**Soft Gold #C9A24B**
Accent: premium, highlights

**Ivory #FBF6EE**
Backgrounds, cards

**Charcoal #2B2B2B**
Body text

**Deep Teal #2F6F6B**
Trust, info, secondary

**Verified Green #2E7D32**
Verified / success only

**Alert Red #B3261E**
Errors, report, delete

**Warm Grey #E8E2D8**
Borders, dividers

## Typography and layout

- Headings: an elegant serif (e.g. Playfair Display) for warmth. Body and forms: a clean sans-serif (e.g. Inter). Hindi / regional text: Noto Sans family. Final font choice to be confirmed in the design stage.
- Mobile-first: 360 px base. Breakpoints proposed: mobile < 640, tablet 640-1024, desktop > 1024.
- Profile photo ratio 4:5 on cards, 3:4 on detail page. Face-aware cropping. Minimum upload 600 x 750 px.
- Touch targets at least 44 px. Text contrast at least 4.5:1. Every colour-coded status also has a text label.
- One primary button per screen. Gold is reserved for premium/upgrade moments so it keeps its meaning.

## Design principles

- Trust before beauty: verification badges, privacy state and safety tips are always visible where decisions are made.
- Calm, not cluttered: one idea per card; details open on demand. Generous white space.
- Family-friendly: respectful language, no dating-app gestures (no swipe-to-reject by default).
- Honest matching: show WHY a profile matches (preferences met) instead of an opaque "92% compatible" score.

## Sample UI elements

# 4. App opening: first look

What the user sees when the app opens

## S-00 Splash screen (app opens)

**WHAT TO DISPLAY**

- Maroon background, gold "setu" (bridge) emblem: two families joined
- Logo + tagline "Where trust meets togetherness"
- Loading dots (max 2 seconds), then auto-moves ahead

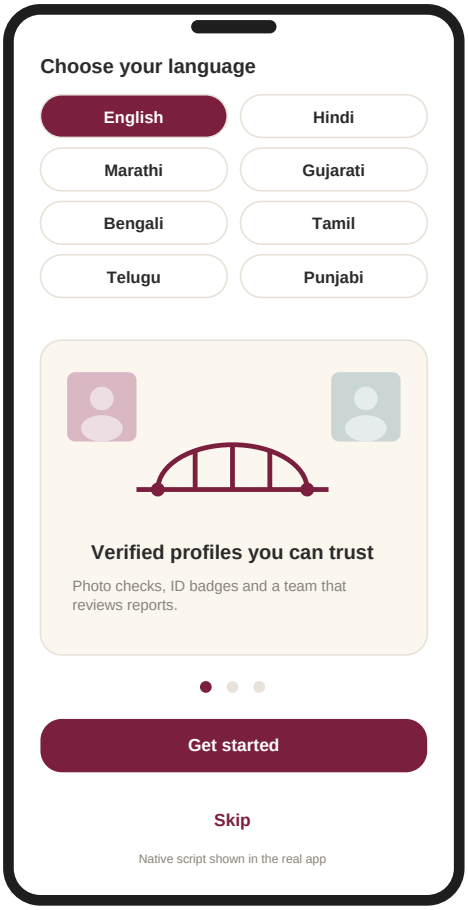

**HIDE / LOCK / RULES**

- New user goes to language + welcome
- Returning logged-in user skips straight to Home (S-01b)
- Needs a lightweight offline/slow-network fallback

**RELEASE**

MVP

## S-00b Language + welcome slides

**WHAT TO DISPLAY**

- Language chips (English + regional languages)
- 3 swipeable welcome slides: Verified profiles, Privacy control, Kundli and Astrology help
- Get started, Skip

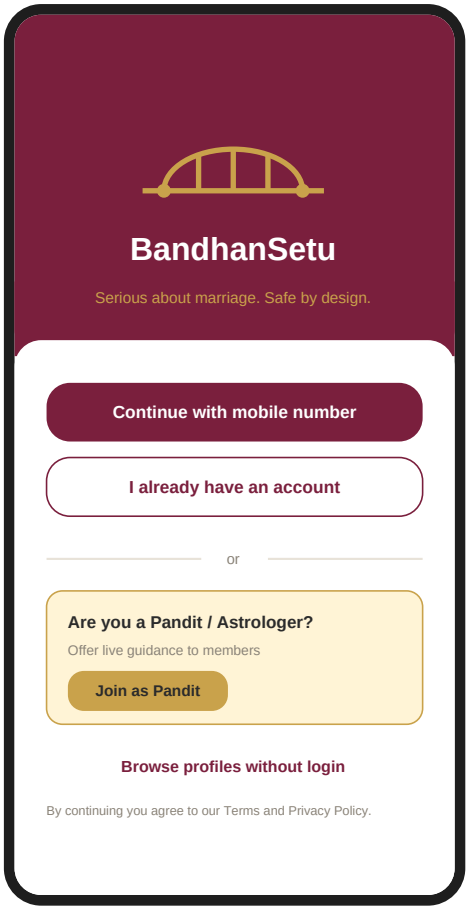

**HIDE / LOCK / RULES**

- Language list depends on decision Q1 (launch languages)
- Language can be changed later in settings
- No data is asked on this screen

**RELEASE**

MVP (2 languages suggested). More languages: Phase 2

## S-00c Get started (login / register / Pandit)

**WHAT TO DISPLAY**

- Continue with mobile number, Login
- "Join as Pandit / Astrologer" entry (separate onboarding)
- Browse without login (limited, no contact data)
- Terms and Privacy link

**HIDE / LOCK / RULES**

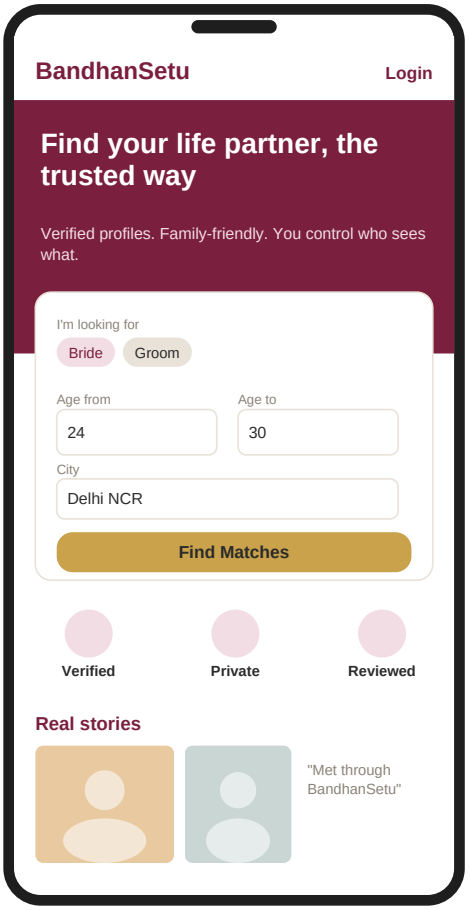

- Pandit signup is a different flow from member signup
- Browse-without-login: decision pending (SEO vs scraping risk)
- Consent is captured at registration, not here

**RELEASE**

MVP member flow. Pandit join: Phase 2 (with live Pandit module)

# 5. Public & onboarding screens

## S-01 Home page

**WHAT TO DISPLAY**

- Hero headline + search card (Bride/Groom, age, city)
- Trust strip: Verified, Private, Reviewed
- Success stories (moderated, with consent)
- Login / Register, language switch

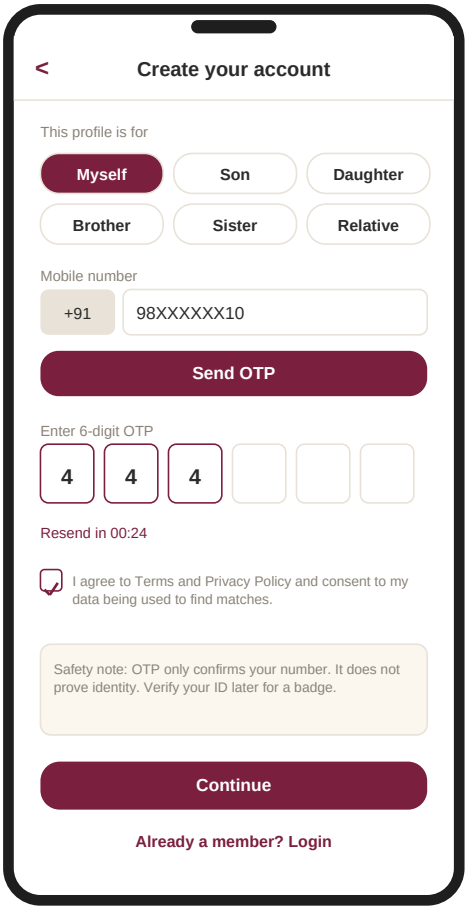

**HIDE / LOCK / RULES**

- No profile photos or names of real members on the public page without consent
- Public profile pages (SEO) show only limited info - decision pending

**RELEASE**

MVP

## S-02 Registration + OTP

**WHAT TO DISPLAY**

- "Profile for": Myself / Son / Daughter / Brother / Sister / Relative
- Mobile number + OTP boxes with resend timer
- Consent checkbox with links to Terms and Privacy
- Plain-language note: OTP does not prove identity

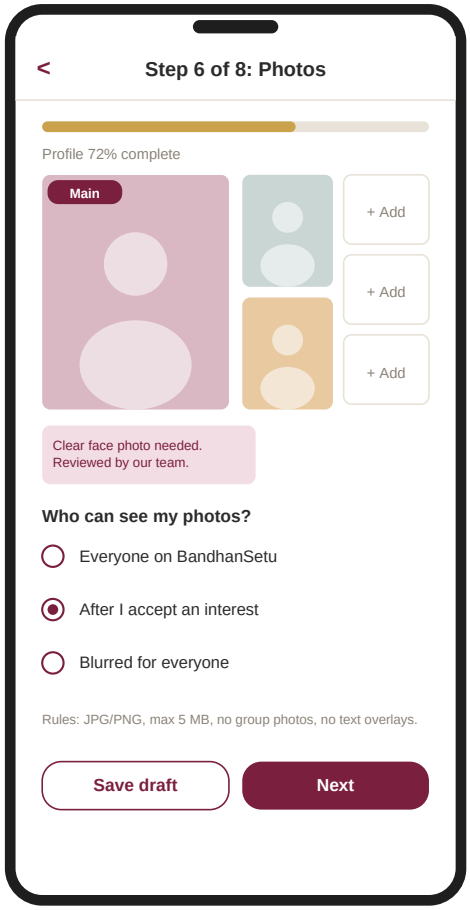

**HIDE / LOCK / RULES**

- OTP rate-limited (attempts and resend)
- Minimum age 18 (F) / 21 (M) checked at profile step - confirm with legal
- Consent is stored with time and version

**RELEASE**

MVP. Email/social login: Phase 2

## S-05 Profile creation: Photos (step 6 of 8)

**WHAT TO DISPLAY**

- Progress bar + completeness %
- Main photo + up to 5 more, drag to reorder
- Photo privacy: everyone / after interest accepted / blurred
- Upload rules and review notice

**HIDE / LOCK / RULES**

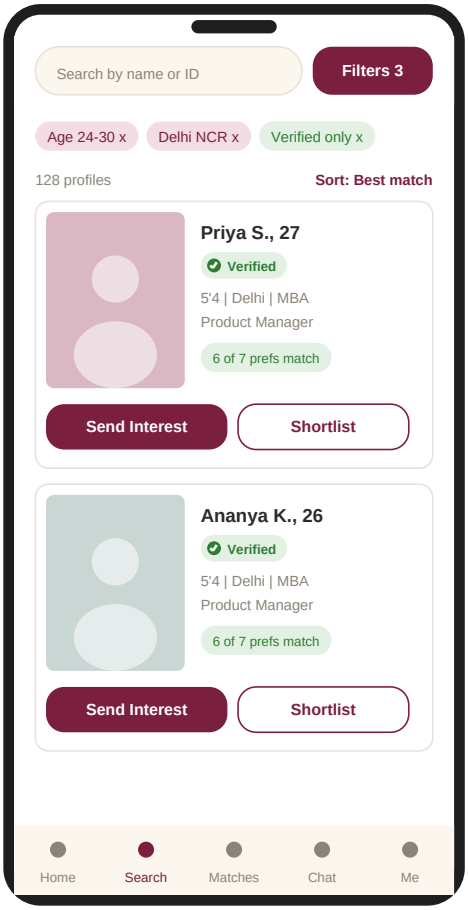

- Steps: 1 Basics, 2 Religion/Language, 3 Location, 4 Family, 5 Education/Work, 6 Photos, 7 About, 8 Preferences
- Photos go to moderation before going live
- Guardian-created profiles need the member's consent flag

**RELEASE**

MVP. Photo verification (selfie match): Phase 2

# 6. Discovery screens

## S-10 Search results

**WHAT TO DISPLAY**

- Filter chips (age, city, verified only)
- Result count and sort (best match / newest)
- Card: photo, first name + initial, age, height, city, education, job, badge
- Match reason chip: "6 of 7 preferences match"
- Send Interest and Shortlist on card

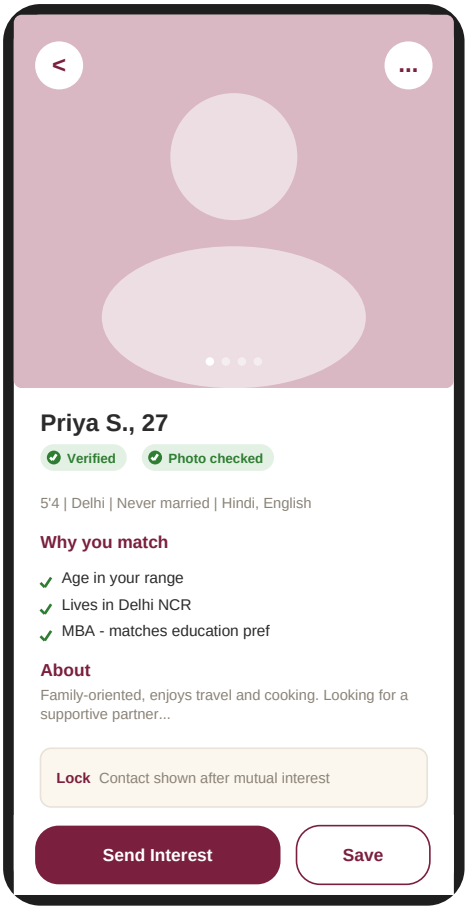

**HIDE / LOCK / RULES**

- Never show full name, exact address, phone or email
- Hide blocked users and users who hid from you
- Rate limits on searching and paging to stop scraping

**RELEASE**

MVP. Saved searches: Phase 2

## S-11 Profile detail

**WHAT TO DISPLAY**

- Photo carousel, name, age, badges
- Basics, About, Family, Education, Work
- "Why you match": preferences met (and not met)
- Sticky actions: Send Interest, Save, More (Report / Block)

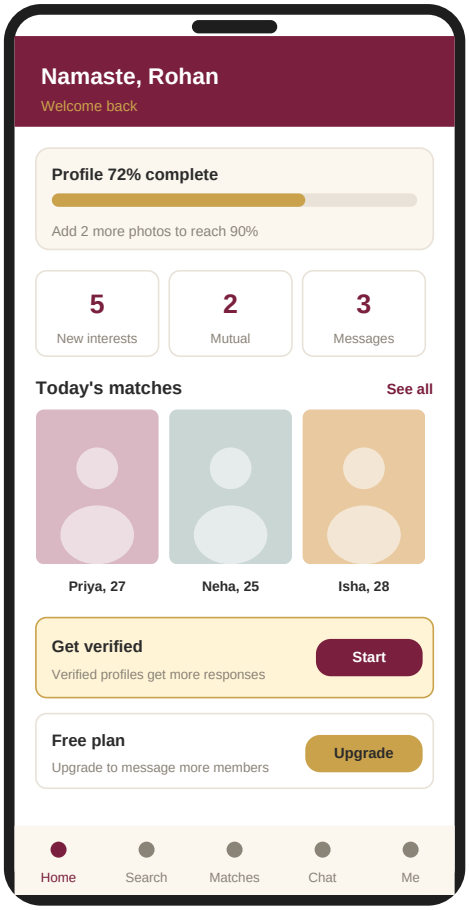

**HIDE / LOCK / RULES**

- Contact details locked: "Shown after mutual interest + consent"
- Blurred photos if the owner chose that setting
- Income shown only as a band and only if owner allows
- Profile view logged; incognito users not shown (paid)

**RELEASE**

MVP

## S-08 User dashboard

**WHAT TO DISPLAY**

- Greeting + profile completion bar with next step
- Counters: new interests, mutual matches, messages
- Today's matches (3-5 cards)
- Verification and plan cards
- Bottom navigation

**HIDE / LOCK / RULES**

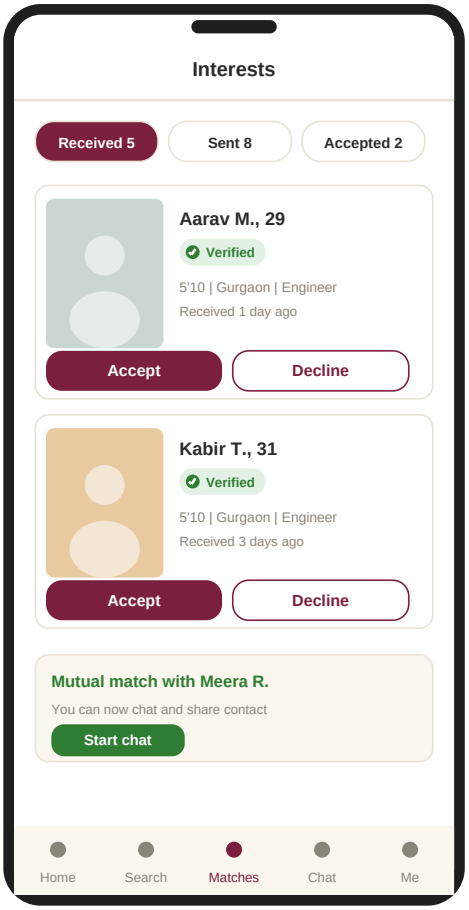

- Match cards only from profiles that pass hard filters + deal-breakers
- Plan card shows entitlements, not marketing pressure

**RELEASE**

MVP. Daily match emails: Phase 2

# 7. Connection & communication screens

## S-12 Interests (received / sent / accepted)

**WHAT TO DISPLAY**

- Tabs with counts
- Card with photo, name, badge, how long ago
- Accept / Decline on received; Withdraw on sent
- Mutual-match banner with Start chat

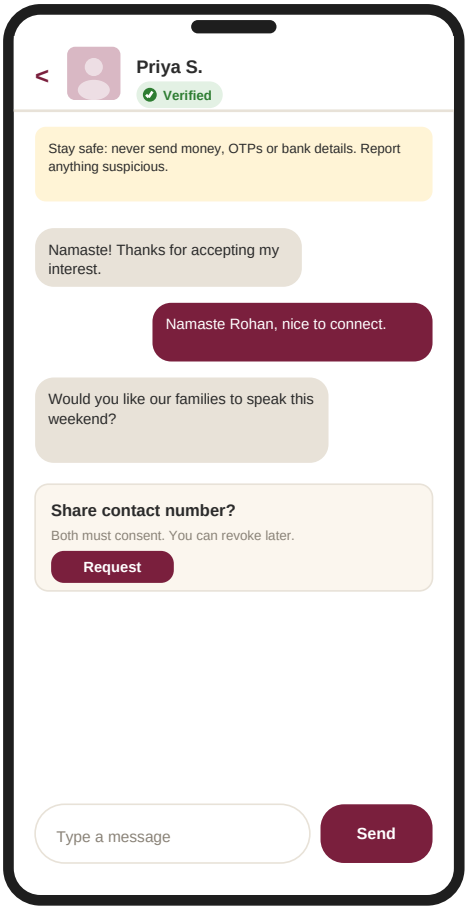

**HIDE / LOCK / RULES**

- States: Pending, Accepted, Declined, Withdrawn, Expired
- Duplicate interest to same person blocked
- Declined users are not told in harsh words (neutral text)

**RELEASE**

MVP

## S-14 Chat

**WHAT TO DISPLAY**

- Header with name and badge
- Safety banner (no money, OTP, bank details)
- Message bubbles, input, send
- Contact-share request card (both must consent)

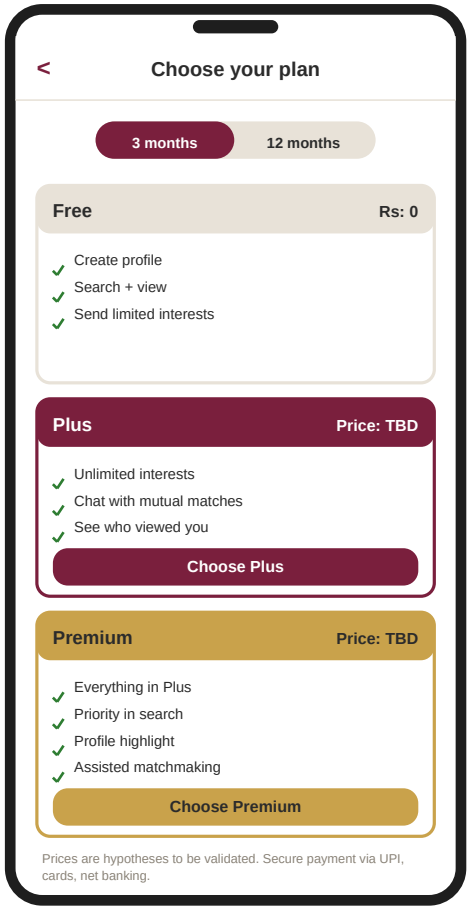

**HIDE / LOCK / RULES**

- Chat only after mutual interest (assumption D6)
- Links and phone numbers in text flagged for review
- Report and Block in the menu; deleted messages follow retention rule
- No read receipts / online status unless user opts in

**RELEASE**

MVP basic text chat. Voice/video: Phase 3

## S-16 Membership plans

**WHAT TO DISPLAY**

- Duration toggle
- Free / Plus / Premium cards with feature ticks
- Clear price, GST info and renewal terms
- Secure payment options

**HIDE / LOCK / RULES**

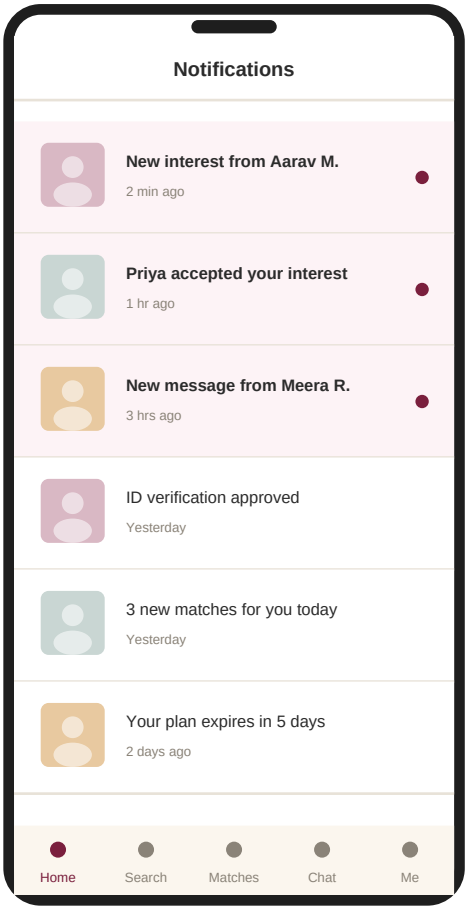

- Prices are placeholders: to be validated
- Free tier must still allow profile creation, search, and replying to interests (decision pending)
- Cancellation and refund terms shown before payment

**RELEASE**

MVP: 1 paid plan. Coupons, upgrade/downgrade: Phase 2

# 8. Notifications, privacy & safety

## S-15 Notifications

**WHAT TO DISPLAY**

- Grouped list: interests, matches, messages, account
- Unread highlight and time
- Tap opens the related screen

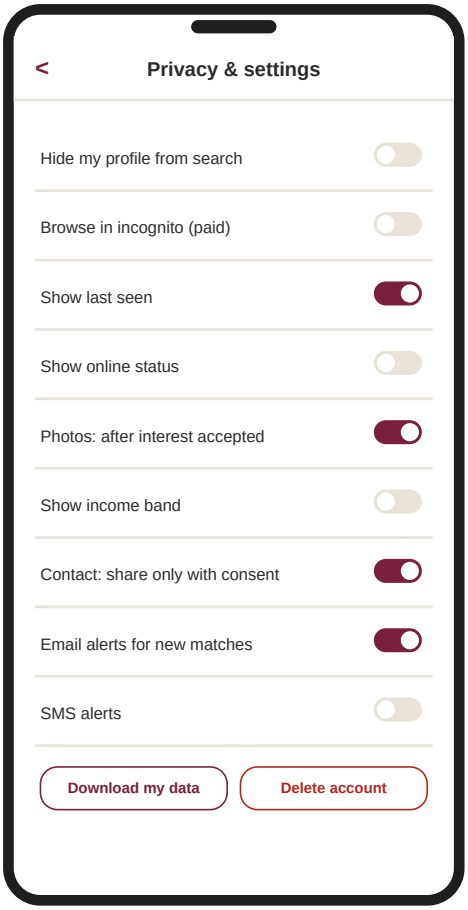

**HIDE / LOCK / RULES**

- Frequency caps to avoid spam
- Respect user channel choices (push / email / SMS)
- Safety alerts cannot be switched off

**RELEASE**

MVP in-app + email/SMS for key events; push: Phase 2

## S-18 Privacy & settings

**WHAT TO DISPLAY**

- Toggles: hide profile, incognito, last seen, online status
- Photo visibility, income band, contact sharing
- Notification preferences
- Download my data / Delete account

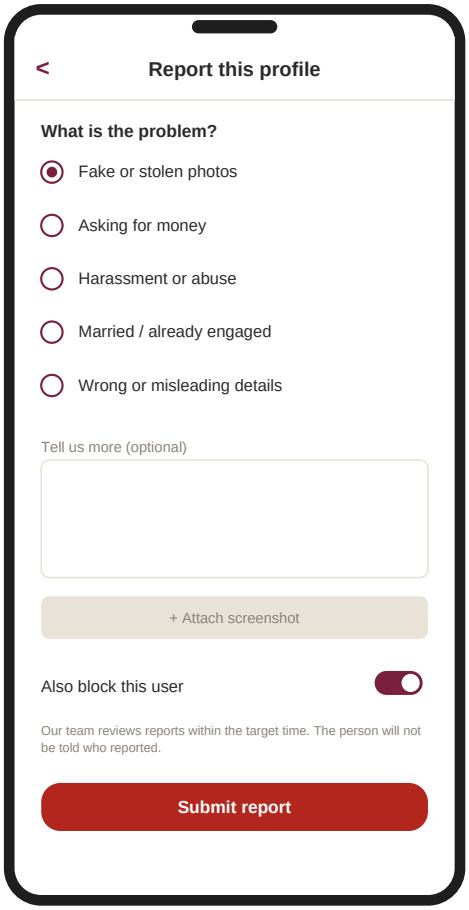

**HIDE / LOCK / RULES**

- Deleting asks for confirmation and explains what is kept for legal reasons
- Defaults are privacy-friendly (most things off)

**RELEASE**

MVP basics. Data export automation: Phase 2

## S-19 Report profile

**WHAT TO DISPLAY**

- Reason list with radio buttons
- Optional details and screenshot
- "Also block this user" toggle
- Confirmation with expected response time

**HIDE / LOCK / RULES**

- Reporter identity never shown to the reported user
- Repeated serious reports can auto-hide profile pending review
- Appeal path for the reported user

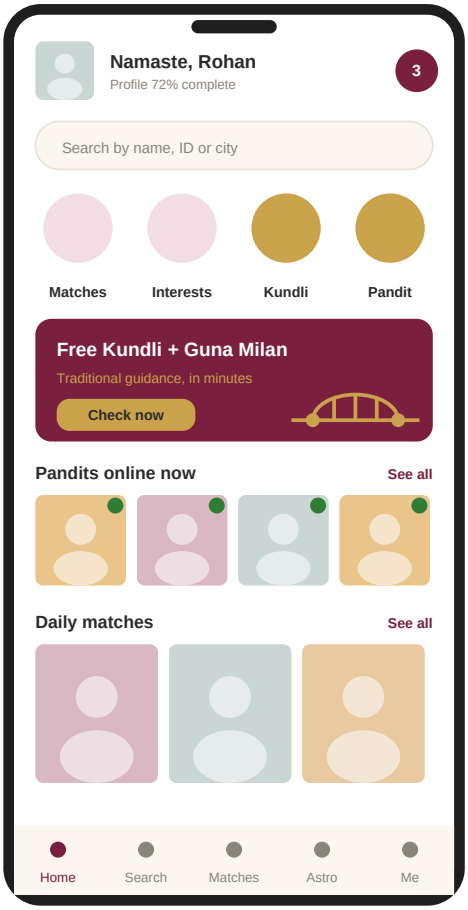

**RELEASE**

MVP

# 9. Home for a returning user (first screen on open)

With Astrology entry points

## S-01b Home (logged-in)

### WHAT TO DISPLAY

- Greeting, profile completion, notification bell
- Search pill and 4 quick tiles: Matches, Interests, Kundli, Pandit
- Astrology banner: Free Kundli + Guna Milan
- "Pandits online now" strip with green live dots
- Daily matches cards, bottom nav with Astro tab

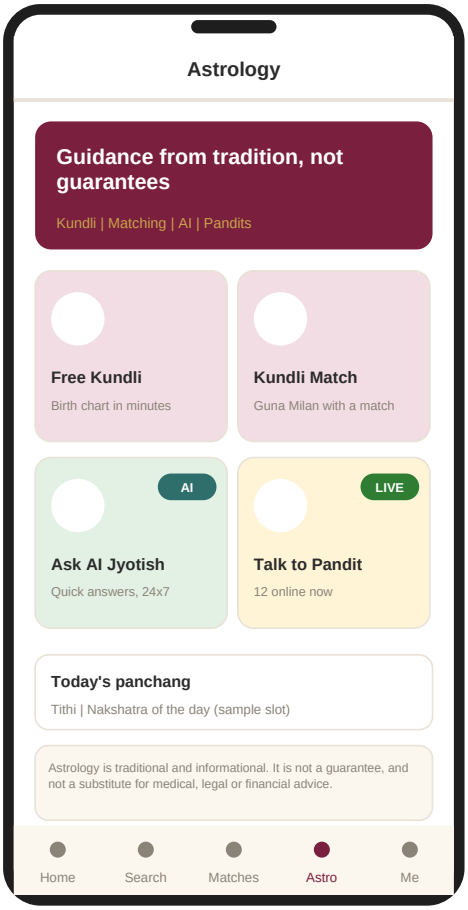

### HIDE / LOCK / RULES

- Pandit strip hidden if no Pandit is online or module not launched
- Daily matches only from profiles passing hard filters
- No red-badge pressure tactics; counts only for real events

### RELEASE

MVP core. Astro/Pandit parts follow the astrology release plan

## S-20 Astrology hub

### WHAT TO DISPLAY

- Four tiles: Free Kundli, Kundli Match, Ask AI Jyotish, Talk to Pandit
- Live count of Pandits online
- Panchang of the day (optional slot)
- Always-visible disclaimer

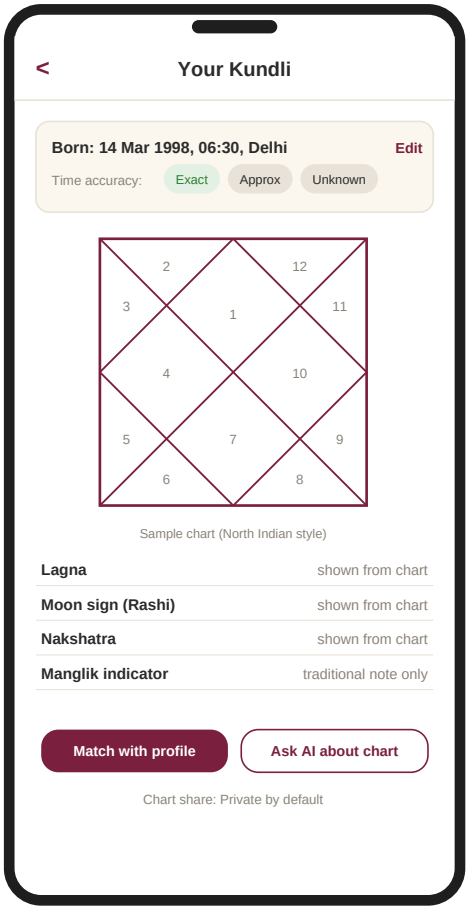

### HIDE / LOCK / RULES

- Disclaimer cannot be removed: traditional and informational, not a guarantee
- Tiles for modules not yet launched stay hidden
- Astrology is optional and never required for matchmaking

### RELEASE

Hub: Phase 2 (Kundli tiles may ship earlier)

## S-21 Your Kundli

### WHAT TO DISPLAY

- Birth details card with time-accuracy selector (exact / approx / unknown)
- North Indian style chart (South/East style optional)
- Lagna, Moon sign, Nakshatra, Manglik as traditional indicators
- Match with profile, Ask AI about chart

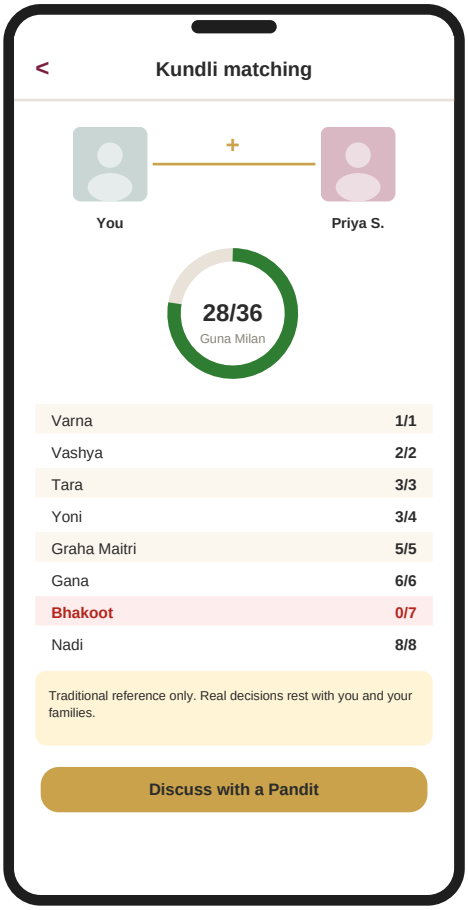

### HIDE / LOCK / RULES

- Birth data is private and sensitive: separate consent, editable, deletable
- Chart is computed by a calculation engine, never by AI
- If birth time is unknown, hide time-dependent items and say so

### RELEASE

MVP-lite candidate or Phase 2 (team to decide)

## S-22 Kundli matching (Guna Milan)

### WHAT TO DISPLAY

- Both people, score ring (example 28/36)
- 8-factor table with points (Varna to Nadi)
- Low factors highlighted for discussion, not as a verdict
- Discuss with a Pandit button

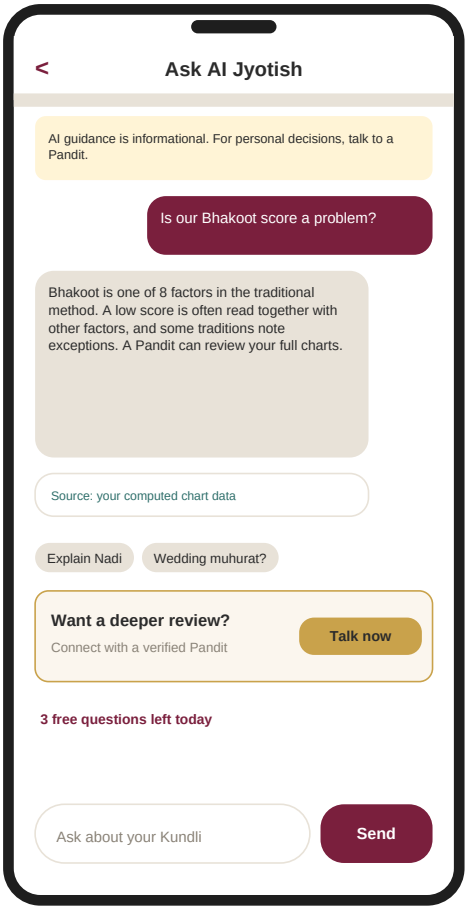

### HIDE / LOCK / RULES

- Needs the other person (or guardian) to share birth details with consent
- Result never auto-hides, ranks down or rejects a profile
- Wording: "traditional reference", never "compatible / not compatible" as a final judgement

### RELEASE

Phase 2 (or MVP-lite with Kundli)

## S-23 Ask AI Jyotish

### WHAT TO DISPLAY

- Chat with suggested questions
- Answers grounded in the user's computed chart data
- Source tag and disclaimer on top
- Free question counter and Talk to Pandit hand-off

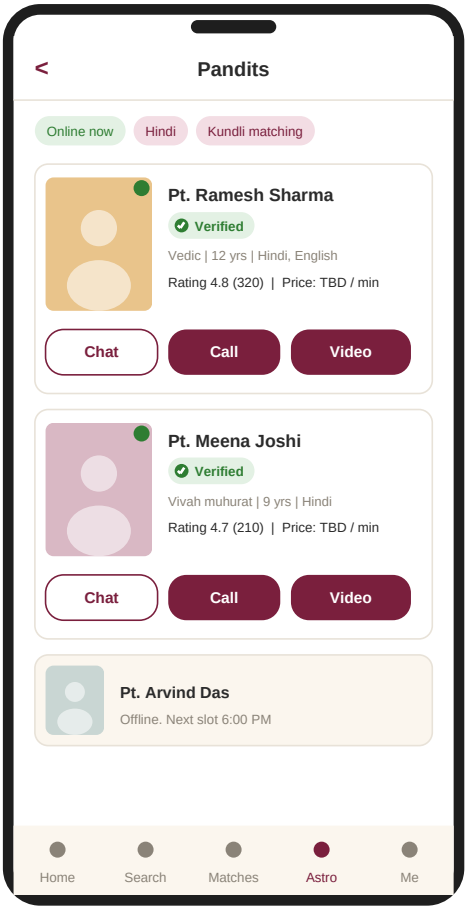

### HIDE / LOCK / RULES

- AI refuses death, illness, pregnancy, legal and investment predictions
- AI does not sell remedies, gemstones or pooja
- Chats are logged for safety review; users can delete them
- No other user's data is given to the AI without that person's consent

### RELEASE

Phase 2

## S-24 Pandit list

### WHAT TO DISPLAY

- Filters: online, language, speciality
- Card: photo, verified badge, experience, languages, rating, price per minute
- Chat / Call / Video buttons
- Offline Pandits show next available slot

### HIDE / LOCK / RULES

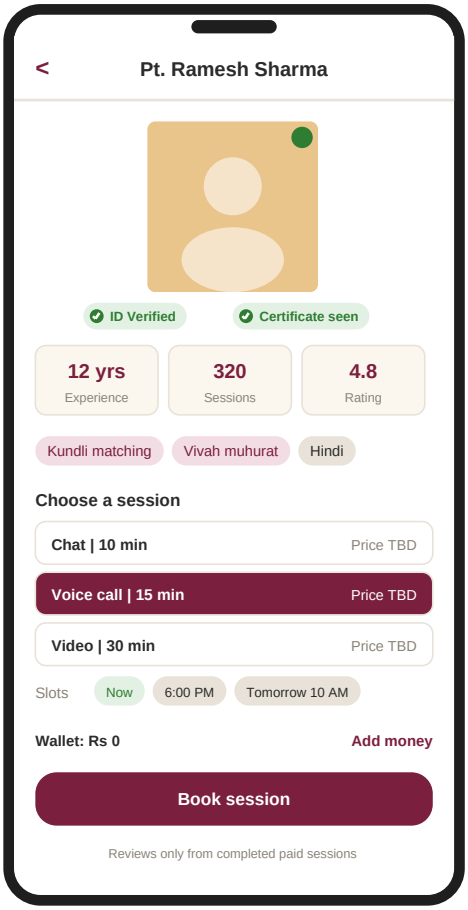

- Only approved, active Pandits appear
- Price shown before connecting, no hidden charges
- Pandits cannot show phone numbers or external links in bio

### RELEASE

Phase 2

# 11. Astrology: booking, live session, Pandit signup

## S-25 Pandit profile + booking

**WHAT TO DISPLAY**

- Photo, badges, experience, sessions, rating
- Specialities and languages
- Session options: chat / voice / video with prices
- Slots (now, later today, tomorrow)
- Wallet balance and Add money

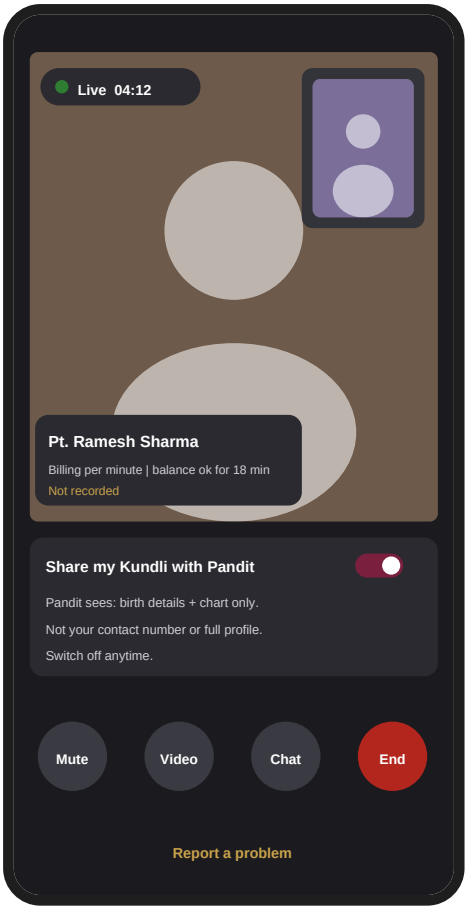

**HIDE / LOCK / RULES**

- Badges: ID Verified and Certificate seen are separate and factual
- Reviews only after completed paid sessions
- Price must be shown before booking; wallet needed for paid sessions

**RELEASE**

Phase 2

## S-26 Live session (voice / video)

**WHAT TO DISPLAY**

- Pandit video, small self view, timer
- Per-minute billing and remaining balance
- Share-my-Kundli toggle (what Pandit sees is listed)
- Mute, video, chat, End; Report a problem

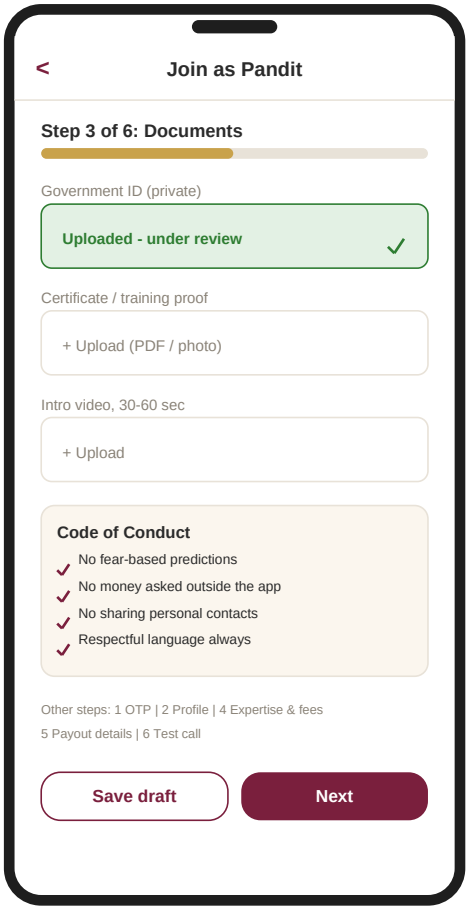

**HIDE / LOCK / RULES**

- Not recorded unless both sides agree
- Auto-warning 1 minute before balance ends
- No charge if Pandit does not join or call fails in the first minute (to confirm)
- Pandit never sees contact number or full matrimonial profile

**RELEASE**

Phase 2 (voice first, video later is an option)

## S-30 Pandit registration (step 3 of 6)

**WHAT TO DISPLAY**

- 6 steps: OTP, profile and languages, documents, expertise and fees, payout details, test call
- Upload ID, certificate, intro video
- Code of Conduct with explicit tick
- Save draft, Next

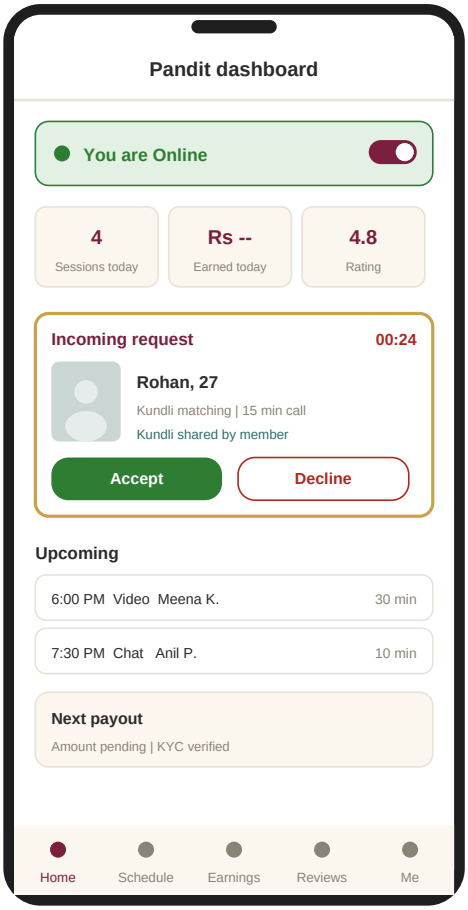

**HIDE / LOCK / RULES**

- Pandit cannot go live until admin approves
- ID and bank details visible only to authorised admin roles
- Rejected applicants get reasons and can re-apply

**RELEASE**

Phase 2

## S-31 Pandit dashboard (Pandit app)

**WHAT TO DISPLAY**

- Online/Offline switch, today stats, rating
- Incoming request with countdown and what the member shared
- Upcoming sessions and payout status

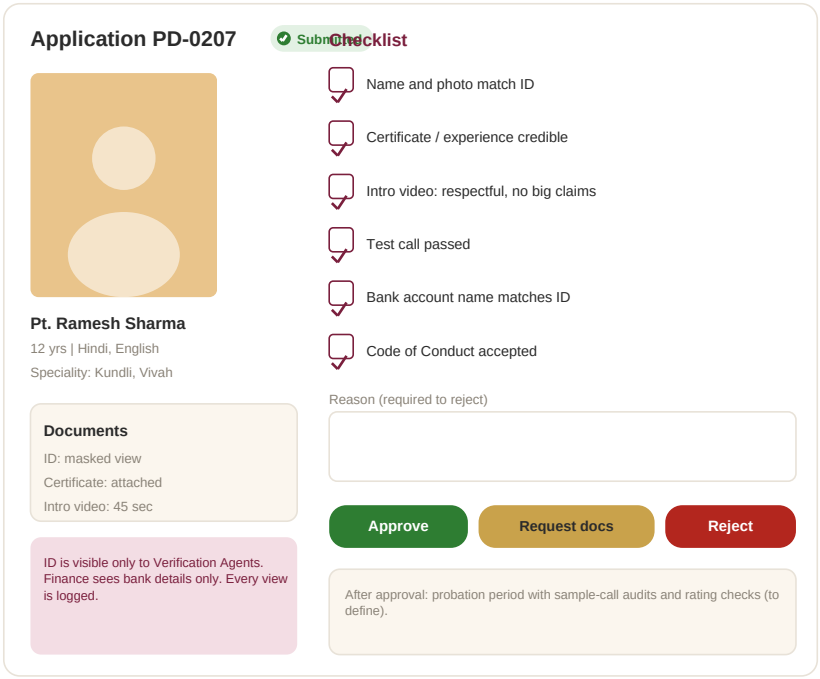

**RULES**

- Request auto-expires if not accepted
- Repeated missed sessions lower visibility
- Earnings shown after commission; breakup visible

**RELEASE**

Phase 2 (web first or app: team decision)

## S-A07 Pandit application review (admin)

- Display: documents, checklist, test-call result, risk notes.
- Roles: Verification Agent decides; Super Admin handles appeals; Finance never sees ID.
- Also needed (not drawn): Pandit session monitor, report queue, payout approval, commission settings.

# 13. Admin panel screens (web, desktop)

## S-A01 Admin dashboard

**BandhanSetu**
Admin

- Dashboard
- Profiles queue
- Verification
- Reports
- Payments
- Support
- Audit logs

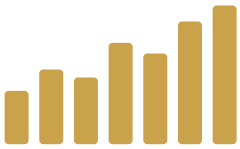

### Operations Dashboard

| 142 | 37 | 18 | 4h 10m |
|---|---|---|---|
| Pending profiles | Open reports | Verifications | Avg review time |

**Review queue**

| Profile ID | Type | Age in queue | Risk | Action |
|---|---|---|---|---|
| BS-1040 | Photo | 12m | Low | Review |
| BS-1041 | New profile | 45m | Low | Review |
| BS-1042 | Report | 1h | High | Review |
| BS-1043 | Photo | 2h | Med | Review |
| BS-1044 | ID check | 3h | Low | Review |

**Signups (7 days)**

Revenue and refunds, fraud flags

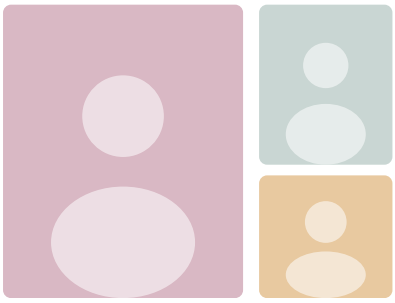

Access to each tile depends on the admin role.

- Display: KPI tiles (pending profiles, open reports, verifications, average review time), review queue sorted by risk and age, trends.
- Rules: role-based access. Moderator, Verification Agent, Support, Finance and Super Admin see different menus and data. Sensitive data is masked by default. All actions are audit-logged.

## S-A03 Profile review

### Profile review: BS-1043

New

**Priya S., 27 | Delhi | MBA**

Submitted by: Parent (guardian consent recorded)

**Duplicate check**

No phone / photo match found

Similar profile: none

Risk score: Low

**Checklist**

- [ ] Photo shows a clear face, single person
- [ ] No contact details inside photo or text
- [ ] Details look consistent (age / education / job)
- [ ] About text follows content rules
- [ ] Guardian consent present

Reason (required if rejecting)

Approve | Request changes | Reject

Privacy rule: Moderators see profile content only. ID documents are visible (masked) just to Verification Agents. Every view is written to the audit log.

History: 0 reports, 0 prior rejections. Last action by: none.

- Display: submitted content, photos, duplicate/risk signals, checklist, decision buttons with mandatory reason on reject.
- Rules: decision SLA to be defined; approved/rejected states notify the member; rejected members can edit and resubmit or appeal.

# 14. What to show, to whom (display rules, proposed)

Privacy by default

| Field | Default visibility | Who can change it | Notes |
|---|---|---|---|
| **First name + last initial** | All logged-in members | Owner (hide profile) | Full name only after consent |
| **Age, height, marital status** | All logged-in members | No (needed for matching) | Age computed from date of birth |
| **City / state** | All logged-in members | Owner (city-level only) | Street address is never shown |
| **Education, profession** | All logged-in members | Owner | Employer name optional |
| **Income** | Hidden | Owner (band only) | Optional and sensitive |
| **Religion, mother tongue** | All logged-in members | Owner | Core search filters |
| **Caste / gotra / horoscope** | Owner decides (decision pending) | Owner | Legally sensitive; counsel review |
| **Profile photos** | Per owner setting | Owner | Public / after acceptance / blurred |
| **Phone and email** | Never shown by default | Owner via consent | Shared only after mutual interest + consent |
| **Last seen / online** | Hidden | Owner | No read receipts by default |
| **ID documents** | Never shown to members | n/a | Masked for Verification Agents only |
| **Verification badges** | Shown if earned | System | Mobile, photo, ID are separate badges |
| **Birth date / time / place** | Hidden (private) | Owner | Shared only with explicit consent |
| **Kundli / Guna score** | Owner only | Owner | Shared with a match or Pandit only by owner action |
| **Who viewed me** | Free: count; Paid: names | Viewer (incognito, paid) | Hypothesis to validate |

## Standard states shown on every screen

- Loading: skeleton cards (no spinners on lists).
- Empty: friendly message + one suggestion, e.g. "No matches yet. Try widening the age range."
- Error: plain language + retry; never show technical codes to members.
- Success: short toast; important actions (delete, block, pay) use a confirmation dialog.
- Locked: padlock + one line saying what unlocks it (mutual interest, consent, or plan).

## Next steps

- You: review these screens, answer the open questions on page 2, and tell me what to change.
- Me: after your answers, build Stage 1 (Vision and Business Requirements, Competitive Analysis) and then the Master Module Tree and Feature Inventory.
- Competitor comparison: I can run web research to add verified, current facts if you want that.

# 15. Astrology and Pandit: business rules (proposed)

For team discussion

| Area | Proposed rule | Why |
|---|---|---|
| **Calculation vs AI** | Charts and Guna Milan scores come from a deterministic calculation engine. AI only explains those results. | Stops AI from inventing planetary positions. |
| **AI scope** | AI declines death, illness, pregnancy, legal and investment predictions, and never pushes remedies or purchases. | Avoids harm and fear-selling. |
| **Disclaimer** | Every astrology screen shows: traditional and informational, not a guarantee. Wording to be reviewed by legal counsel. | Honest expectations; consumer-claims risk. |
| **Birth data** | Date, time and place of birth are treated as sensitive. Separate consent, edit and delete options, private by default. | Privacy and data protection duties. |
| **Matching another person** | Needs that person (or guardian) to share their birth details. Without consent, only own chart is shown. | Consent of the other person. |
| **No auto-rejection** | Kundli, Manglik or Guna score never hides, blocks or ranks down a profile automatically. Optional user-chosen filter only. | Avoids discriminatory outcomes. |
| **Pandit approval** | Mobile OTP, ID, certificate or experience proof, intro video, test call, then admin approval. No self-activation. | Trust and fraud control. |
| **Pandit conduct** | No fear-based claims, no asking for money outside the app, no sharing personal contacts. Warning, then suspension. | Protects users, protects platform revenue. |
| **Remedies and pooja** | Selling remedies or pooja through Pandits: allowed or banned? Decision pending. | High mis-selling risk; needs a clear policy. |
| **Billing** | Prepaid wallet. Per-minute or fixed-session pricing (decision pending). Auto-warning before balance ends. | Predictable cost for users. |
| **Failed sessions** | No charge if Pandit does not join or the connection fails early. Automatic wallet refund. | Fairness and fewer disputes. |
| **Recording** | Not recorded by default. Recording only if both sides agree. Chat logs follow the retention rule. | Privacy and safety. |
| **Pandit data access** | Pandit sees only what the member shares in-session (name, birth details, chart). No phone, email or full profile. | Data minimisation. |
| **Ratings** | Only after a completed paid session. Moderated. Pandits cannot delete reviews. | Credible reviews. |
| **Payouts** | Commission %, settlement cycle, TDS and GST handling to be defined with finance and legal advisers. | Compliance, not assumed. |
| **Age** | Paid Pandit sessions only for verified 18+ members. | Safety. |

# 16. Astrology and Pandit: release plan, data, tech, risks

For team discussion

## Recommended release split (my proposal; team decides)

| Feature | Suggested release | Reason |
|---|---|---|
| **Free Kundli + Guna Milan (calculated)** | MVP-lite candidate, else Phase 2 | Cheap, no marketplace, strong engagement. |
| **Ask AI Jyotish** | Phase 2 | Needs guardrails, cost control and review of answers. |
| **Pandit chat (text)** | Phase 2 | Lower cost and risk than live calls. |
| **Pandit voice / video** | Phase 2 or 3 | Real-time infrastructure, per-minute billing, support load. |
| **Pandit registration + approval** | Phase 2 (with live) | Needed before any Pandit goes live. |
| **Wallet, payouts, commission** | Phase 2 | Finance and compliance work. |
| **Kundli-based match filters** | Phase 3, decision pending | Sensitive; must stay optional. |

## Why not everything in MVP?

- Pandit module is a two-sided marketplace: supply (Pandits), demand (members), payments both ways, quality control and support. It can double the launch effort.
- The matrimonial core (profiles, search, interests, chat, trust, payments) must be solid first; astrology is a strong differentiator but depends on it.

## New modules and data (proposed IDs)

- Modules: M-P Astrology Hub | M-Q AI Jyotish | M-R Pandit Marketplace | M-S Pandit Onboarding | M-T Wallet and Billing | M-U Pandit Admin.
- Tables: astro_profiles, kundli_charts, kundli_matches, ai_sessions, ai_messages, pandits, pandit_documents, pandit_availability, pandit_sessions, session_billing, wallets, wallet_transactions, pandit_reviews, payouts, commission_rules.
- Existing tables reused: users, consent_records, notifications, reports, audit_logs, roles/permissions (new roles: Pandit, Pandit Verification Agent).

## Technical building blocks (options to evaluate, nothing chosen yet)

- Astro calculation: an ephemeris-based library. Check its licence terms carefully (some are AGPL or need a commercial licence) before choosing.
- Birthplace geocoding with historical timezone data, so birth time converts correctly.
- AI: an LLM provider with strict system rules, grounding on computed chart data, safety logging and cost caps.
- Live voice/video: a real-time (WebRTC) provider; compare India latency, cost per minute, recording options.
- Wallet and payouts: payment gateway that supports wallet top-ups and split/transfer to Pandits; verify support and rules.
- Presence and push: show who is online, ring Pandits for incoming requests.

## Revenue ideas (hypotheses to test, numbers not set)

- Platform commission on Pandit sessions; free limited AI questions, more with premium plan; paid detailed Kundli report; wedding-muhurat consult packages.

## Main risks

- Cold start: too few Pandits online means long waits. Quality and fraud: fake Pandits, collusion, pressure selling.
- AI mistakes or unsafe advice. Sensitive birth data. Misleading-claims and consumer-protection exposure (needs legal review).
- Call quality and payment disputes; higher support cost.

# 17. For your team discussion

Decisions needed and suggested agenda

| # | Decision | Options | My provisional lean |
|---|---|---|---|
| 1 | Astrology in MVP or Phase 2? | All in MVP / Kundli only in MVP / all in Phase 2 | Kundli + Guna Milan in MVP-lite, rest Phase 2 |
| 2 | Pandit pricing | Per minute / fixed session / both | Per minute for call, fixed for chat packs |
| 3 | Connect mode | Instant only / scheduled only / both | Both, start with instant for online Pandits |
| 4 | Commission and payout cycle | Flat % / tiered; weekly / monthly | Decide with finance adviser; no number yet |
| 5 | Pandit supply | Invite own network first / open registration | Invite-only pilot, then open with approval |
| 6 | Languages for Pandits | Hindi + English first / add regional | Match member launch languages |
| 7 | Chart style and rules | North / South / East Indian; default method | Pick with an astrology adviser (verify) |
| 8 | AI scope and vendor | Explain-only / free Q&A; which provider | Explain-only, grounded on computed data |
| 9 | Remedies / pooja selling | Allowed with rules / banned | Banned at launch (lower risk) |
| 10 | Recording | Never / consent-based | Consent-based only |
| 11 | Pandit verification depth | ID only / ID + certificate + test call | ID + certificate + test call |
| 12 | Legal review | Astrology claims, payouts, data protection | Required before launch (qualified counsel) |

## Suggested 60-minute agenda

- 10 min: walk through app-opening screens (pages 4 and 9) and the overall look.
- 15 min: astrology screens (pages 9-12): do they match your vision?
- 20 min: decisions 1-6 above; note disagreements in the decision log.
- 10 min: risks, legal review list, who owns what.
- 5 min: next steps and owners.

## Who should attend

- Product owner, tech lead, designer, finance/ops owner, and an astrology adviser (a practising Pandit) for rule validation.

## What happens after the meeting

- Send me the answers (even partial). I will update the decision log and build Stage 1 documents: Vision and Business Requirements, Competitive Analysis, then Master Module Tree with the astrology modules included.
- All wireframes here use placeholder photos; they show structure and content, not final visual design.
